L'attention du Souscripteur est attirée sur les risques suivants :

Risque de Marché

Le risque induit par l'investissement sur une action est essentiellement lié à la variation à la baisse du cours de l'action et peut être expliqué par les deux composantes suivantes : soit une composante globale de baisse des marchés action (risque général), soit une composante spécifique à la valeur de l'action du fait de son activité propre, le risque maximum étant la perte totale de l'investissement en cas de faillite de la société détenue.

Risque de liquidité

Le risque de liquidité représente la difficulté à acheter ou à revendre un actif. Les marchés peuvent être occasionnellement affectés par un manque de liquidité.
